Automated People Movers 2005

Contents

Invited Paper

What’s in the Pipeline?—A Preface to ASCE APM 05 Conference and Proceedings
Hal Lindsey

Airport Projects

Roped Automatic People Mover Systems
Frank P. Bares

DFW APM—Innovative Solutions to Success
Ken W. Corey

Oakland Airport Connector: Pushing the Design-Build Envelope
Tom Dunscombe and Elaine Cartwright

Cost Efficient Solutions for Airport Mobility Needs
Alfred S. Fruehwirth

Los Angeles International Airport APM Planning
Sebastian Gladney and Harley Moore

Trends in Airport Automated People Movers
Andrew S. Jakes

Planning the Oakland Airport Connector Alignment to Enhance Passenger Service
Hugh Johnson and J. David Mori

Automated People Mover Procurements in a Mature Industry
Diane Woodend Jones and John Kennedy

A New Generation of a Cable Propelled APM System at Toronto Pearson International Airport in Canada
Alexander Klimmer

Airport Landside Mobility—APM Implementation Issues
David D. Little and Liam Caffiney

System Modeling and Simulation versus Installation Performance
Aaron R. Hester and Gregory W. Love

Atlanta CONRAC Automated People Mover: Potential Industry Trends or Just Local Preferences?
Lawrence M. Miller, Denise P. Burleson, and John Kapala
Right-Sizing Airport Automated People Movers
Harley L. Moore

Strategic Project Optimizing Advice for the Miami International Airport Connector
J. David Mori

AirTrain JFK—The First Nine Months of Operations
Steven Plate

More than Just a Maintenance Facility: The DFW Airport Maintenance and Storage Facility
Tomas Rivera and Ronald E. Sheahan

FLL Airport/Port Everglades APM and Intermodal Center—Feasibility Analysis
Sanjeev N. Shah, Sambit Bhattacharjee, J. David Anderton II, Ralph Zeltman, and Bill Houppermans

MIA Mover—Post 9/11 Project Strategy
Sanjeev N. Shah, Kamel Mokhtech, Carlos F. Bonzon, Richard Garcia, Guillermo Carreras, and Gasser Douge

Zero to Sixty: Managing the Design, Construction, and Implementation of the World’s Largest Airport Automated People Mover
Perfecto M. Solis, Andrew Bell, and Scott Kutchins

Introducing Innovia APM Technology to the World
I. M. Barry Winstead

Planning and Operations

Ride-Sharing on PRT
Ingmar Andréasson

Major Automated Guideway Transit Systems for American Cities
Michael G. Ang

Potential of APMs as Line Haul Systems in Developing Nations: A Case Study—Sky Bus
Murthy V. A. Bondada and Rajaram Bojji

Metro Technology
A Face Lift for the Bellagio-Monte Carlo People Mover
Steven Castaneda and Dean Hurst

Detroit People Mover: Past, Present, and Uncertain Future (?)—Lessons Learned
Utpal Dutta and Ramakrishna R. Tadi

Challenges of Aging APMs
Rod Falvey, Dan McFadden, and Stan Thornton

Automated Guideway Transit Compendium and its Educational Role in Technology Classification
Matt G. Heling and Andrew S. Jakes

Automated People Movers 2005

American Society of Civil Engineers, 1801 Alexander Bell Drive, Reston, VA 20191 USA
Phone: 1-800-548-ASCE (2723) or 1-703-295-6300  Fax: 1-703-295-6211  Internet: wwwpubs.asce.org
Comparative Analyses of APM and LRT Systems for Medium-Capacity Guideway Transit Applications
Jiun-Jia Hsu and L. David Shen

The Automated People Mover’s Role in Airport Security
Michele Jacobson

Optimizing AGT Applications through Demand-Responsive Control Systems
J. Sam Lott and Eugene Nishinaga

Copenhagen Driverless Metro: A Significant Operation and Maintenance Experience
Piero Marotta

Optimal Planning of Transit Routes for Large Cities
B. R. Marwah, Raman Parti, and P. K. Kalra

Willingness-to-Pay for Personal Rapid Transit in the City of Almelo
M. M. Minderhoud and H. J. Van Zuylen

Detroit People Mover: Automatic Train Control Upgrade (ATCU) Project
Alan Sullivan, Dennis Gary, Gary Lambert, Alan Atad, and Amica Bose

Impact of Light Rail on Megacenter Growth in Downtown Houston
Rafiqul Alam Tarefder, Rumana Alamgir, Shanmugam Pirabaroonan, and Jason Polk

PRT Systems

ParkShuttle II: Review of the Antibes Experiment
Adriano Alessandrini, Francesco Filippi, Georges Gallais, Michel Parent, and Daniele Stam

The Design, Operation, and Benefits of an Optimized PRT System
J. Edward Anderson

Three Financial and Socio-Economic Assessments of a Personal Rapid Transit System
P. H. Bly and R. Teychenne

Critical Review of the Personal Rapid Transit Literature
Wayne D. Cottrell

Personal Rapid Transit Applications at Airports
Peter J. Muller

PRT—A High-Quality, Cost-Efficient and Sustainable Public Transport System for Kungens Kurva
Göran Tegnér and Ingmar Andréasson

Incremental Improvements to the Morgantown PRT
S. E. Young and J. E. Devault
Systems

Software Control for an APM System
Matthew S. Aldrich

A New Public Transport System that Bridges the Gap Between Cars and Rail: IMTS
Keiji Aoki and Rie Hayashida

Aeromobile-Aeroduct Automated People Movers AAAPM
William R. Bertelsen

Siemens Free Propagation Radio Transmission System for APMs
Corinne Braban and Jean-Yves Danic

The M3 Maglev People Mover: Suspension, Propulsion, and Guideways
Tracy Clark, Walter Eggers, Richard Thornton, and Scott Phelan

Conservation of Electrical Energy for Automated Transportation Systems
Jefferson H. Davis

Open-Standards Radio Based Train Control Proven for APMs
David M. Dimmer

New Steering System of Automated People Mover
Hiroyuki Kohno, Shunji Morichika, Hiroyuki Mochidome,
Hiroshi Yamashita, Masahiro Yamaguchi, and Satoru Nishimura

Radio Based Train Control Systems for the APM Market
E. Kuun

Integrating Three-Dimensional Elevator Systems
Shannon S. McDonald

Improved Passenger Security: Real Time Onboard CCTV Technology Proven and Available
Mike Myers and Christophe Carde

A New Direction for the Developmental Scenario of the Mega-APM Systems
Motoyuki Minakami

High Speed/Long Haul APM Network Opportunities
Daryl Oster

The M3 Maglev People Mover: Vehicle Design and System Control
Brian Perreault, Robert Wind, James Wieler, and Chris Raine

Energy Efficient and Demand-Driven Operation of Automated Rapid Transit Systems
S. Scholz and J. Schütte

Dynamics of Automated People Mover Vehicle in Earthquake
Hitoshi Tsunashima and Yosuke Sato

Dynamics of Actively Steered Automated People Mover Vehicle
Hitoshi Tsunashima, Shinichi Aoki, Hiroyuki Kohno, and Syunji Morichika
Urban Projects

The VAL of Torino—First Italian Driverless Automatic Metro
Nathalie Duquenne, Marielle Cuvelier, François Baranowski, and Josette Bigot

An Overview of the Neihu Rapid Transit System, Taipei, Taiwan
Michael E. Fetsko and Marc Drolet

New Driverless Metro in Brescia: Construction Update
C. Ghiggi

Indianapolis People Mover—2004 Project of the Year
Dean Hurst

New Solution for Urban Traffic: Small-Type Monorail System
Takeo Kuwabara, Motomi Hiraishi, Kenjiro Goda, Seiichi Okamoto, Akira Ito, and Yoichi Sugita

Ansaldo Driverless System Product—New Applications
Pierfranco Romano and Bruno Prato

Siemens VAL Solution in Torino—The First Driverless Metro in Italy
Philippe Sauvard

Las Vegas Monorail Innovations
Tedd L. Snyder

The Opening of Okinawa Urban Monorail
Kiyokatsu Toma

The West Kowloon Cultural District Automated People Mover
David K. C. Yau, Harley L. Moore, and Jackie C. Yang

Barcelona Line 9—The First Driverless Metro in Spain
Corinne Braban and Gérard Yelloz
