Invited Paper

Photo Essay of Hoover Dam/Construction as the 75th Anniversary in 2010
Approaches ................................................................. 1
Brit Storey and Jerry R. Rogers

Opening Plenary

Celebrating the 200th Anniversary of the Birth (1807-2007) of James Pugh Kirkwood: Environmental/Civil Engineer and ASCE Leader......................... 12
Jerry R. Rogers

Filtration of Municipal Water Supplies in the United States .................. 18
Gary S. Logsdon and Thomas J. Ratzki

History of the Department of Environmental Engineering Sciences, University of Florida............................................................ 29
James P. Heaney

History of Environmental Engineering at the University of Texas at Austin............ 36
Joseph F. Malina, Jr. and Earnest F. Gloyna

History and Impacts of Levees in the Lower Rio Grande Valley.................. 44
John N. Furlong, John Ivey, Joe Barrow, Mike Moya, and Ralph O’Quinn

Historic Small-Scale Water Projects

The Maya: America’s First Water Resource Engineers.......................... 68
James A. O’Kon

The Acequias of San Antonio and the Beginnings of a Modern Water System ........ 79
Dana Nichols

The Machine of Marly: Water Supply for Versailles .................................. 84
Georges Comair

The Florida Water Management History Project

The Florida Water Management History Project ........................................ 90
Garrett Wallace, Buddy Blain, and Kathryn Mennella

History of Experimental Watershed Research in the United States

History of the USDA-ARS Experimental Watersheds on the Washita River, Oklahoma.......................................................... 94
Jurgen D. Garbrecht, Patrick J. Starks, and Jean L. Steiner
Environmental and Water Resources
Milestones in Engineering History

History of the USDA-ARS Walnut Gulch Experimental Watershed.............................. 107
M. H. Nichols and K. Renard

Goodwin Creek Experimental Watershed: A Historical Perspective .........................113
R. L. Bingner, R. A. Kuhnle, and C. V. Alonso

History of Hydrologic Research and Data Collection at the Grassland, Soil
and Water Research Laboratory, Riesel, Texas.................................................................118
R. D. Harmel and C. W. Richardson

Watershed Research at the North Appalachian Experimental Watershed
at Coshocton, Ohio .............................................................................................................. 127
James V. Bonta, Lloyd B. Owens, and Martin J. Shipitalo

45 Years of Climate and Hydrologic Research Conducted at the Reynolds
Creek Experimental Watershed......................................................................................... 135
Gerald N. Flerchinger, Danny Marks, Mark S. Seyfried, Fred B. Pierson,
Anurag Nayak, Stuart P. Hardegree, Adam H. Winstral, and Patrick E. Clark

Other Invited Papers
The Galveston/Texas Hurricane of 1900: A Review of the Events that Led
to the Galveston Seawall and Grade Raising................................................................. 144
Martha F. Juch and Jerry R. Rogers

Hydrologic Detectives: Re-creating the July 1938 Flood for HEC-HMS Model
Calibration.................................................................................................................... ....... 148
Melinda Luna and Andrew Ickert
